

Electoral structure review - Casey City Council - Response Submission
Tim Ahchow - Pearcedale - 21 November 2023, 09:05 pm

I am very much in favor of Model 3. I believe this is the best option for a number of reasons.

1. The south of the council area has been the "poor cousin" ever since Casey Council was formed because it only had one councilor.
2. The top end of Westernport Bay is an extremely important natural feature that needs special consideration for its long term welfare, which will flow on to the locals of the area and indeed all Victorians.
3. The Coastal Villages as they have become known, which includes Pearcedale are very much in the Melbourne Green Wedge and as such needs as much support at all levels of government as is possible.
4. Model 3 appears to have the best mix of Electors to Councilor.
