

Electoral structure review - Horsham Rural City Council - Response Submission
Brian Basham - Horsham - 05 July 2023, 09:53 am

I wish to make a submission regarding potential wards for the Horsham Rural City Council.

My preferred option is not listed. I believe that due to the diverse nature of the HRC municipality, the area would be best served by the current model of 7 councillors, with no wards. However, if some unknown reason (other than legislation) we need to go to wards, I would support Model 3. This, in my opinion, accurately reflects the nature of municipality. It also provides the opportunity for elected councillors to represent both central Horsham and rural residents, and understand the nuances and balances between the both.
