

Electoral structure review - Frankston City Council - Response Submission
Alan Watts - Frankston South - 28 July 2023, 04:08 pm

As a resident of Frankston South for more than 30 years, my preference is for Model 3. The boundaries for the ward to me best reflect the census and locality identity. Having 9 wards will provide the level of representation manageable for the City of Frankston. In regard to the Yamala ward name, I support this name as we still have part of the Yamala estate buildings, located at the intersection of Yamala Drive and Nepean Highway. Thank you for the opportunity to comment on the proposed change.
