I feel like the initial model having the Fawkner area extend over the cemetery into Hadfield makes less sense than extending that area further South, which I've set out here. It also allows the majority of Glenroy to stay intact and create a Glenroy/Gowenbrae collective area. Similarly, the initial outlines seemed to split Oak Park, so I have adjusted it so that Pascoe Vale and Oak Park are collected together. Splitting Brunswick on a North/South axis allows the Sydenham Rd precinct to stay intact, as well.

Thanks!
