

**Electoral structure review - Wyndham City Council - Response Submission**  
**Beelan Ong - Point Cook - 20 November 2023, 10:01 pm**

I am strongly against these 2 models as they divided Point Cook into parts that do not represent the Point Cook community as what it used to be especially Point Cook Town Centre as the heart of Point Cook suburb is thrown away to so called "Waterholes Ward" or Williams Landing ward which has different post code. Why is post code 3030 being divided and part of is given to other bigger area with post code which is 3027 or 3029? This is really divisive especially to all the residents who had lived here and seen the development Point Cook from paddock to what is successful township in the West. I really cannot understand the logic that Point Cook Town Centre which is serving Point Cook residents in terms of library service, postal service and all the commercial convenience and medical centre is being separated to other ward and divide the confused residents like us. We residents really take high pride of Point Cook Town Centre which is our heart and soul.

The Waterhole ward or Williams Landing ward has so many post code in it 3027, 3029 and 3030 which is really confusing. Furthermore, the Point Cook Town Centre area if combine to Waterhole ward or Williams Landing is not geographic appropriate as it is divided by Princes Freeway(M1).

In conclusion, as a long time resident in Point Cook, I am really sad to see that Point Cook Town Centre is being cut into other area. I strongly recommend to unite all the post code 3030 which is Point Cook as one independent ward which can serve the residents best.
