

**Electoral structure review - Horsham Rural City Council - Response Submission
Andy Van - Horsham - 19 July 2023, 04:38 pm**

I am supportive of the review and I am in favour of mirror representation over corporate , favouring least interest representation.

I would consider the communities views as mostly aligned on a number of key issues, following this I question the that current number of councillors may be disproportionate to the community's needs.

Thank you for the opportunity to provide comment.
