Electoral structure review - Monash City Council - Response Submission Guru raja rao Krishnan - Glen Waverley - 20 July 2023, 09:26 pm

Model 3 appears to fulfill the requirement of a single-councillor ward structure since it has individual wards with relatively similar elector numbers, ensuring each ward has a single councillor. The deviations in elector numbers are relatively lower in this model compared to the other models, making it a more balanced and representative option.
