

**Electoral structure review - Frankston City Council - Response Submission

Looking at the three proposed options I am more in favour of option number 2 or 3.
I think having a 9 ward council is better than 8 with having odd numbers means there shouldn't be a tie in votes.

If I had to choose I'd be saying that option #3 looks better just as the ward boundaries are generally straighter which will make it easier to view / overlay on a map if required and make more sense to my fellow Frankston residents.
