

Electoral structure review - Glen Eira City Council - Response Submission
Michael Cramphorn - Caulfield North - 08 August 2023, 09:13 pm

I prefer model One in that it preserves the known communities and relationships. Models Two and Three represent too much of a change from the status quo.

i am happy with the name Caulfield Park for the ward in which I would be located.

I am concerned that these single person wards are going to make it too easy for Councillors to entrench themselves in a particular ward 'for life' in that competition would be reduced over what we have now where three Council spots are being competed for, per ward. I cannot understand the rationale for this change, but assuming it goes through, I would like to suggest that Councillors should not be allowed to hold their positions for more than 2 terms. This would ensure a fresh flow of ideas on a regular basis.
