Subject: Stonnington City Council electoral structure review - submission by Damien Anthony

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

To whom it may concern,

Despite being a resident of East Ward, I recognise the current disproportionate representation of the lower population density areas covered by East Ward, and therefore support the a adoption of Model 1, which most fairly redirects votes per councillor towards population distribution. This must be highest priority matter for this redistribution.

Matters relating to legibility and alignment to roads are of lower priority and can always be clarified at the time of needing to engage with councillors.

Kind regards,

Damien Anthony
