

**Electoral structure review - Greater Geelong City Council - Response Submission
Diane Dower - Barwon Heads - 26 July 2023, 11:07 am**

There has not been enough time for my community to consider all of these proposed changes. Since the Bellarine councillors have been working well together I don't see the point of this unsettling change. We have not been presented with a reason why this disruption is necessary. Having looked at the 3 models presented by the VEC I don't see how any of them will improve the efficient functioning of our local government. The best model of the 3 for my community of Barwon Heads is Model One. Again I emphasise that if I had not been personally told of this review I would not have known it was happening.
