

**Ward boundary review - Greater Dandenong City Council - Response Submission  
Bojan Milkovic - Dandenong North - 19 March 2024, 12:19 pm**

I write in support of model 2 which better caters for residents and needs particularly in regards to industrial area bordering green wedge zone in Dandenong Sth and Keysborough Sth.

It creates an enormous Dandenong Ward which encompasses everything from high density areas of Scott and Hemmings street to vast fields in the green wedge zone.

It would be challenging for ward councillor to manage and look after the needs of such vast area and balance the needs of residential, industrial and green wedge zone all at the same time
