

**Ward boundary review - Murrindindi Shire Council - Response Submission  
Melinda Evans (second submission) - Taggerty - 13 March 2024, 12:43 am**

Please see attached a potential option for ward boundary changes in Murrindindi shire Council. However, I still prefer the three ward option posed by VEC in 2019.

In my previous submission, I argued that the 'Murrindindi' area should not be included in the Cathedral Ward due to there being no viable route through to it. However, on closer inspection, according to the information in the interactive map, that section does not have any voters, so it is not crucial at this stage in which ward it is included.

Please note, when using the interactive mapping tool, it would be easier to suggest workable new ward boundaries if there was an overlay function that showed topographical information, boundaries of uninhabited areas (e.g., forest reserves and state parks), shops, public buildings, and roads. Otherwise, the interactive map is easy to use.
