

**Electoral structure review - Stonnington City Council - Response Submission
Ashleigh Tomkins - South Yarra - 20 July 2023, 01:32 pm**

Whilst option 3 is my preference in all options the high density area in the Darling/Como Ward is severely under represented. with the development occurring in this area this under representation will only get worse

This high density area's importance and alignment of needs is important to Stonnington's future.

Equal representation while keeping communities together should be the first priority. option 3 attempts to do this by focusing the wards on geographic and commercial shopping streets rather than splitting across the streets
