Port Phillip City Council electoral structure review

I am writing as a longtime resident of Fitzroy St, St Kilda.

Having considered the three models proposed as options by the Commission, I support the adoption of Model 2 on the basis that it best reflects the coherence of communities of interest in each of these districts.

However, I am surprised that a small pocket at the southern end of Fitzroy St, from Acland Street to the beach, is included in Catani Ward. I believe the interests of residents and businesses in this area are more closely attuned to those in the rest of the proposed St Kilda Ward. I'd like to suggest that this boundary is slightly redrawn to take this into consideration.
