

Electoral structure review - Wodonga City Council - Response Submission

I wish to see option 2, the current Councilors do not represent the ratepayers with one ward and we do not get fair representation. It is disgusting that people who do not live in the Wodonga Council area can even run for Council. We have Councilors that live in NSW and do what they can to represent the interests of NSW, so we need wards to represent what we pay for with our over priced rates.

I support option 2.
