

**Electoral structure review - Mildura Rural City Council - Response Submission
Troy Bailey - Mildura - 17 July 2023, 10:08 pm**

As stated previously in my submission without mapping changes, the attached ward boundaries utilises the largest townships and growth corridors of the Mildura Rural City Council and branches outwards to geographical areas most recognised by local communities. It also utilises naming conventions most recognisable to local communities. This mapping design represents the least change management for Victorian Electoral Commission and local Council staff to assist with the transition to single-councillor wards.

Troy Bailey
Councillor - MRCC
